Complete Water Treatment Solutions

We are a dedicated water treatment solutions provider, committed to delivering clean, safe, and sustainable water through advanced technologies. Our mission is to ensure water purity, environmental safety, and client satisfaction with customized and efficient solutions.

Why Choose Us

Proven Expertise

With years of experience in water treatment, AQUATEK delivers reliable, efficient, and customized solutions.

Smart Technology

Our systems are fully automated with optional manual control, ensuring easy operation.

Advanced Technology

We are committed to providing innovative solutions that will help create a better tomorrow for everyone.

Rapid Value Creation

Designed to fit compact spaces without compromising capacity or effectiveness.

Our Solutions

REVERSE OSMOSIS

- Semi-permeable Membrane Technology
- Industrial & Domestic Use
- Removes Salts and Impurities
- Compact & Space Saving
- Automated with Manual Control

Water Softening System

- Removes Hard Water Ions
- Ion-Exchange Resin Process
- Enhances Plumbing Lifespan
- Ideal for RO Pre-treatment
- Compact, Efficient, Reliable

D.M. PLANT

- Removes Total Dissolved Solids
- Dual Vessel Resin System
- Ion-Free Water Output
- High-Quality Components Used
- Protects Membranes and Pumps

Water & Waste Water

- Filters: Dual Media, Sand, Activated Carbon, Iron Removal
- Water Softeners
- D.M. (Demineralization) Plants
- R.O. (Reverse Osmosis) Plants
- Sewage Treatment Plants (STP)

Water & Waste Water Solutions

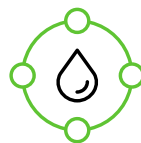

Borcelle Energy leads in solar solutions for all sectors, committed to a sustainable future through global renewable energy adoption and emissions reduction

- ✓ Pure Water Output
- ✓ Low Maintenance Cost
- ✓ Eco-Friendly Solutions

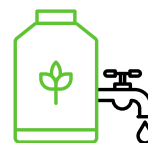

Dual Media Filter

Removes suspended solids and turbidity effectively for clear water.

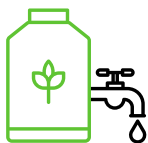

Activated Carbon Filter

Eliminates chlorine, odour, colour, and organic impurities.

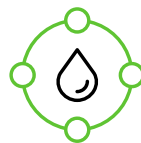

Water Softener

Reduces hardness by removing calcium and magnesium ions.

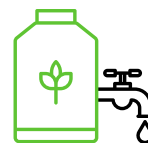

D.M. Plant

Produces high-purity demineralized water using ion exchange.

R.O. Plant

Advanced membrane purification to remove salts and impurities.

Sewage Treatment Plant

Treats domestic/industrial wastewater for safe discharge or reuse.

REVERSE OSMOSIS (RO) SYSTEM

Advanced Water Purification
Technology

RO - SYSTEM

AQUATEK's Reverse Osmosis systems ensure pure, safe water by removing impurities and dissolved solids, ideal for domestic and industrial applications.

BENEFITS

- ✓ Pure Water Output
- ✓ Compact Space Design
- ✓ Low Maintenance Cost
- ✓ Energy Efficient Operation
- ✓ Automated Safety Controls

WHY CHOOSE US?

Trusted for our experience, automation, space-saving designs, quality components, and unmatched service — delivering reliable water treatment solutions.

WATER SOFTENING SYSTEM

Hard Water to Soft Water

WATER SOFTENING

Removes hardness-causing minerals like calcium and magnesium, ensuring longer equipment life, better soap efficiency, and smooth water flow.

BENEFITS

- ✓ Prevents Scale Formation
- ✓ Improves Appliance Life
- ✓ Reduces Soap Usage
- ✓ Enhances Water Quality
- ✓ Easy Maintenance System

WHY CHOOSE US?

We offer expert-built systems with advanced automation, compact design, reliable performance, and dedicated after-sales support at competitive pricing.

D.M. PLANT (Demineralization System)

High-Purity Water Production

D.M. PLANT

Removes all dissolved salts and minerals to produce deionized water using premium-grade resins, ensuring high quality and consistent output.

BENEFITS

- ✓ High Purity Output
- ✓ Long Resin Life
- ✓ Reliable Water Quality
- ✓ Easy Maintenance Design
- ✓ Compact and Durable

WHY CHOOSE US?

We offer expert-built systems with advanced automation, compact design, reliable performance, and dedicated after-sales support at competitive pricing.
